Differentiated Distance Teaching of Turkish as Foreign Language Project

Teaching Turkish as a foreign language emerged as a new scientific field especially after 2000's. Turkish language has become one of the languages that are taught around the World with Turkish Cooperation and Coordination Agency (TIKA)'s transferring works on Turkish to Presidency for Turks Abroad and Related Communities (YTB) and establishment of Yunus Emre Foundation. People who want to receive education in Turkey, institutions and organizations that want to communicate with Turkish employers and people, who would like to visit Turkey with touristic purposes, search for ways to learn Turkish.

The opportunity of learning Turkish in basic level is offered free to the people who want to visit Turkey for education and travel, cooperation with **Basic Level A1 Distance Turkish Learning System "Türkçe Öğreniyorum (Learning Turkish)"** program, that is prepared in the charge of Yasar University and run with the contributions of Yasar University Open And Distance Education Center.

Türkçe Öğreniyorum is developed under Differentiated Distance Education of Turkish As Foreign Language Project, which is supported by TÜBİTAK under 3501 Program with the project code of 115K270.

The objective of the Project is to develop a worldwide distance learning system, which is sensitive to individual differences and can differentiate the content according to readiness level of the learner. The Project is limited by level A1, which is mentioned in "Common European Framework of Reference For Languages".

Türkçe Öğreniyorum was designed as an Adaptive Massive Open Online Course. It is developed in accordance with the philosophy of open and distance learning. It aims to teach Turkish by adopting communicative approach instead of a grammar-based strategy. Its content is compatible with both the contents of Yunus Emre Institute and Turkish Language Learning Research and Application Center (TOMER). There are 53 chapters, dictionary of rules, dictionary, forum and virtual meeting applications In **Türkçe Öğreniyorum** system. In each chapter, there are lecture videos, drama videos, which includes real-life situations, writing, pronunciation and reading activities as well as games. English, Arabic, Russian and French language support is offered in the system.

Everyone who wants to learn or teach Turkish can register from <https://turkish.yasar.edu.tr/> for free.

2

System Features

Lecture Videos: You can obtain basic information for each module in just a few minutes. Also, you can watch the videos with English, French, Arabic and Russian subtitles.

Drama Videos: They contain real-life dialogues and events. You can integrate Turkish in with your daily life more easily with the help of these videos.

Games and Puzzles: They are designed to practice while having fun. You can repeat the words in the related chapter with word puzzles and play games on completing daily dialogues.

Listening Activities: These activities are to hear the pronunciations of the expressions, words and notions mentioned in the chapters. You can match the pronounced word with the visual or text. Thus, you can reinforce the words and expressions you learned.

Writing Activities: They are for you to complete the missing parts in words or sentences mentioned in the chapter. With these activities, you can improve your writing skills and control the accuracy of your answers.

Different Language Support: You can access the lecture videos with English, French, Arabic and Russian subtitles. There are also English, French, Arabic and Russian translations for the dictionary of rules and dictionary of vocabulary.

Assessment at the End of the Chapter: It contains the subject you learned in the chapter and the activities you performed. You can see how much you learned by taking the self-assessment quiz, which contains 10 questions and contain listening, writing and reading activities. You can repeat the test as many times as you like.

Dictionary of Rules: You can have a good knowledge on main grammatical rules of Turkish language with this tool. You can learn and practice the rules in detail with this tool. It has English, Arabic, Russian and French language support. You can access the tool independently of the modules.

Dictionary: The course contains four different definitions of the words in the A1 level. Also, you can reinforce vocabulary with visuals and examples used in sentences. There are also listening and speaking activities for each word. Thus, you can not only learn the meaning of the word, but also practice its pronunciation and use it in your daily life more effectively.

Virtual Meeting Tool: You can speak with Turkish instructors live and make video chat. You can repeat the subjects; do speaking and writing activities during the virtual meetings. You can attend these meetings in groups and get feedback from our instructors while voice-chatting and video-chatting with the Turkish language learners around the World.

Forum: It is a platform where learners and instructors communicate with each other in written form. You can ask your questions about how to use the system and share your suggestions. You can also write in Turkish to other learners around the World. You can ask questions and exchange opinions about the topics.

Pronunciation Activities: These activities help you to pronounce the words and sentences you learned and compare them by listening to your own pronunciation.
